

A map of the Hawaiian Islands archipelago. The islands are outlined in black. The distribution of the Hawaiian monk seal is shown with yellow shading and black dots. Yellow shading is present on the islands of Midway, Laysan, and the northern tip of Oahu. Black dots are located on the islands of Kauai and Niihau.

Intensity:

The Drought Monitor focuses on broad-scale conditions. Local conditions may vary. For more information on the Drought Monitor, go to <https://droughtmonitor.unl.edu/About.aspx>
