

A map of the United States showing the distribution of the American bison (*Bison bison*). The range is shaded in green, covering the northern plains and parts of the western and central US. The distribution is concentrated in the northern plains, particularly in Montana, Wyoming, and the northern part of the Dakotas. It also extends into the western part of the US, including Idaho, Utah, and Colorado, and into the central part of the US, including Nebraska, Kansas, and Oklahoma. The range is also shown in the southern part of the US, including Texas, New Mexico, and Arizona.
